

## Statistics on Penalty Cases of Act on Property-Declaration by Public Servants

(Statistics period : 1993/9/1~2014/3/31)

unit : record

properties/ assets	owners of property			Total amount
	declarant	spouse	average children	
land	789	727	7	1,523
building	108	129	3	240
vehicles	19	21	0	40
savings	449	566	14	1,029
securities	349	575	8	932
creditor	2	4	0	6
debt	601	277	3	881
other valuable property	1	8	0	9
investment in ventures	135	98	10	243

※The statistics shown above were collected based on the number of fined properties/assets, not the number of cases investigated.

Notes :

1. Based on the cases of intentionally making untruthful declarations which are penalized by Control Yuan, we distinguish between the property owner and the number of punishments according to the fined properties/assets.

2. Under the same penalty case, there is one type of penalty for single or multiple fined properties/assets under one personal property; there is also another type of penalty for single or multiple fined properties/assets under two or more properties of several different owners.

3. The securities included stocks, bonds, trust fund beneficiary certificates and other securities. The valuable property included jewelry, antiques, precious calligraphy and painting, insurance, and other valuable property.

**【example】** A public servant who doesn't declare his entire assets should be fined. A public servant intentionally makes untruthful declarations with assets of 3 records of land, 13 records of stock, and 10 records of fund beneficiary certificate shall be imposed with a fine. And the statistics above should report 3 records of land and 23 records of securities.
